

The safety and wellbeing of our travellers, staff and group leaders is of paramount importance. As the spread of the Coronavirus (COVID-19) continues to escalate, we have made the difficult, but critical decision, to suspend all tours departing until the end of July 2020.

Our staff continue to receive information on each country on a regular basis, and we shall continue to monitor the situation and follow DFAT's advice. Progress of tours scheduled for later in the year will be reassessed over the coming months.

We appreciate your patience as we work through this evolving situation around the world. Please be assured that we are working as hard as we can to address clients' concerns in as timely a manner as possible. We are contacting those who are were due to travel over the April – July period as a priority.

ASA is currently operating our normal working hours, however the majority of staff are working remotely from home due to government advice.

We encourage you to send an e-mail, which may be dealt with sooner.
